## Software Developer

### ABOUT ME

Recent graduate of Business Information Technology from Haaga-Helia with a focus on software development who is highly motivated and full of can do attitude. Interned at Beesh where i worked with individuals from different cultures to bring a change in the field of sex education to kids through technology. I am from Nepal, but i have traveled around Europe for the past for 3 years and now settled down in here looking for professional employment. With my travel experiences I've met a variety of people and I can say with certainty that one of my strongest suits is my ability to understand and co-operate with different types of people.
